

Specifications of cable tray cover clips

Article Overview

Cable tray cover clips are designed to securely fasten covers onto cable trays, available in various shapes and materials to suit different load, environmental, and installation requirements.

Types of Cable Tray Cover Clips

- C Clips: C-shaped clips that mount covers onto trays, commonly made from stainless steel or galvanized steel for durability and corrosion resistance, suitable for both indoor and outdoor use .
- J Clips: Wrap around the cover or tray structure to hold it securely, typically constructed from solid metals like stainless steel or galvanized steel .
- L Clips: L-shaped clips used to attach the bottom part of the tray to the overhanging cover, ideal for widespread mounting and heavy-duty applications, often made from stainless steel or aluminum .
- P Clips: P-shaped clips designed for even load distribution, providing secure suspension of covers, usually manufactured from high-strength stainless steel .
- Hook Clips: Lightweight clips with a hook shape, easy to install and adjust, often made from corrosion-resistant aluminum or plastic for moderate environments .

Material and Durability

- Stainless Steel: Offers high corrosion resistance, suitable for industrial and outdoor applications .
- Galvanized Steel: Provides strength and long-term durability, often used in heavy-duty trays
