

# Standard 1U storage server chassis price

## Article Overview

A standard 1U storage server chassis typically costs between \$150 and \$600, depending on brand, features, and included components.

### Price Range and Factors

The cost of a 1U server chassis varies widely based on several factors:

- **Brand and Build Quality:** Well-known brands like Supermicro, Dell, and HP generally command higher prices due to reliability and enterprise-grade features (Supermicro 1U chassis start around \$200-\$400) .
- **Drive Bays and Storage Capacity:** Chassis with more hot-swappable drive bays or support for larger storage arrays are more expensive. Basic 1U chassis with 2-4 bays can start around \$150, while models supporting 8-12 drives may exceed \$500 .
- **Included Components:** Some chassis come with power supplies, fans, and rails included, which increases the price. Barebones or frame-only models are cheaper, often in the \$150-\$250 range .
- **Retailer and Deals:** Prices fluctuate depending on the retailer. Amazon and Newegg often have competitive pricing and occasional discounts, while eBay may offer used or refurbished units at lower costs .

### Summary

For a typical 1U storage server chassis, you can expect to pay:

- Entry-level / basic chassis: \$150-\$250...
