

Standard Size of Outdoor Waterproof Distribution Box

Article Overview

Outdoor waterproof distribution boxes are typically IP65-rated enclosures made from durable ABS or PC plastics, available in multiple sizes and configurations to suit industrial, commercial, and photovoltaic applications.

Key Features

- **Ingress Protection:** Most outdoor distribution boxes meet IP65 standards, providing protection against dust, rain, and water jets, with some models rated up to IP68 for full immersion .
- **Materials:** Constructed from ABS or polycarbonate (PC) plastics, offering UV resistance, corrosion resistance, and mechanical strength suitable for outdoor environments .
- **Flammability:** Housing plastics are evaluated per UL 94 standards, ensuring fire safety .
- **Mounting Options:** Wall or pole mounting is common, with some models featuring DIN rail compatibility for modular electrical components .
- **Impact Resistance:** Certain industrial models provide IK09 impact resistance, protecting against mechanical shocks .

Dimensions and Configurations

- **Compact Models (AT Series):** Designed for tight spaces, suitable for small-scale installations with straightforward cabling
