

Standard installation price of household electrical distribution boxes

Article Overview

The typical cost to install a standard household electrical distribution box ranges from \$120 to \$560, depending on box type, amperage, and installation complexity.

Cost Overview

For a basic residential installation, a standard single-gang or small distribution box in an accessible indoor location usually costs \$120–\$260, which includes labor and materials . This range covers straightforward installations with minimal wiring adjustments and standard 120/240V circuits. For mid-range setups, such as a two-gang box with multiple outlets or a small subpanel, costs typically rise to \$160–\$435, reflecting additional labor, materials, and minor wiring complexity . Labor for these installations generally ranges from 1–2 hours for simple boxes to 2–3 hours for more complex setups, with electricians charging \$75–\$125 per hour depending on region and expertise .

High-End or Complex Installations

Larger or outdoor-rated distribution boxes, weatherproof enclosures, or installations requiring new circuits and safety features like AFCI/GFCI protection can cost \$350–\$1,600 or more . Premium setups, including 200A-rated or outdoor meter boxes, may reach \$1,000–\$2,000, with industrial or custom enclosures exceeding \$5,000 in some cases . Factors influencing higher costs include:...
