

Status of Main Optical Cable Construction Project

Overview

The SJC2 consortium announced today with NEC Corporation (NEC; TSE: 6701) the completion of construction and the start of operations for the Southeast Asia-Japan Cable 2 (SJC2), a high-capacity optical submarine cable connecting the Asia region. Terminating in the South Pacific. Project is Phase III of the Los Angeles Trans-Pacific Telecommunications Cable Hub (Cable Hub) project and will use a subsea steel bore pipe and beach manhole that were constructed under Phase I of the Cable Hub project. The project would also install and operate one. What Is Involved In A Fiber Optic Project?

A fiber optic project begins with a need for communications and ends with an installed fiber optic cable plant and an operating network that fills that communications need. From the initial site survey to the final fiber to the home (FTTH) connection, every stage requires careful planning, coordination, and.
