

Steel Cable Tray Warranty

Article Overview

Steel cable tray warranties typically cover defects in materials and workmanship, with coverage varying by manufacturer and product type.

Overview of Warranty Coverage

Most reputable steel cable tray manufacturers, such as MP Husky and US Tray (Atkore), provide warranties that ensure their products are free from defects in materials and workmanship under normal use and installation conditions . These warranties are often tied to compliance with industry standards such as NEMA, UL, CSA, and sometimes CE marking for international products . Warranties may also cover corrosion resistance for galvanized or stainless steel trays, depending on the product type.

Typical Warranty Terms

- **Duration:** Warranties can range from 1 year to 10 years, depending on the manufacturer and the type of steel used (e.g., hot-dipped galvanized steel may have longer coverage than mill galvanized steel).
- **Scope:** Coverage usually includes manufacturing defects, structural integrity, and finish quality. It generally does not cover damage from improper installation, misuse, or environmental factors outside the manufacturer's specifications.
- **Certification Compliance:** Products certified to UL, NEMA, or CSA standards often have warranties that assume installation and use in accordance with these standards
