

Thailand Data Center Low-Voltage Distribution Box Manufacturer

Overview

Nitto Kogyo BM (Thailand) was jointly established by Bangkok Sheet Metal PCL and Nitto Kogyo Corporation in January 2018, aiming to contribute local society setting up secure electrical infrastructure, making use of each company's advantage. From circuit breakers and buses to enclosures, panel boards, and switchboards, we offer a full range of safe, reliable solutions for low-voltage electrical distribution applications. Whether you design, build, operate, or service buildings or critical facilities, discover four ways to manage. With more than 30 years of experience, E. S International (1991) has gained industry recognition for its expertise in design and manufacturing of Medium and Low voltage switchgear. We provide solutions for clients from retail, hospitality, airports, data centers, governmental projects, power/chiller. ABB Drives is a global technology leader serving industries, infrastructure and machine builders with world-class drives, drive systems and packages. experiences in distributing electrical components and installing the electrical switchboard both commercial and industrial type such as: Moreover, We are also a.
