Article Overview

The top of a cabinet refers to the uppermost surface of a cabinet box, often used for decoration or left empty, depending on design and function.

Terminology and Definition

The top of a cabinet is generally called the cabinet top or upper surface. For base cabinets, this surface typically supports a countertop, while for wall-mounted or upper cabinets, it forms the horizontal panel at the roof of the cabinet box. In furniture pieces like chests or credenzas, the cabinet top serves as the primary display surface. The terminology can vary depending on the cabinet type, location, and intended use, but "cabinet top" is the most universal term for this area .

Decorative and Functional Uses

The space above wall cabinets, especially in kitchens with standard ceiling heights, is often underutilized. Modern design trends encourage using this area intentionally rather than leaving it empty or cluttered. Popular approaches include:...
