

Warranty for ONT Optical Network Terminal SFP

Overview

● Standard warranty: 5 years ● Expedited replacement is available via a Cisco SMARTnet™ service support contract. GPON) Small Form-Factor Pluggable (SFP). x (1/2/3/4/5) compliant with SFP packaging and integrates a bidirectional optical transceiver function with a GPON media access control (MAC) layer function. It provides a Gigabit Ethernet (GigE) service to any device capable of hosting. Thank you for purchasing the Ubiquiti Networks® U®Fiber OLT. This Quick Start Guide is designed to guide you through installation and also includes warranty terms. TERMS OF USE: All Ethernet cabling runs must use CAT5 (or above). And now we bring you our Wi-Fi 7 ONT, for the highest in-home speeds. No matter the features or form factor you need, Nokia has the right. PON technologies, unlike Ethernet, are not P2P but one-to-many with two device types: ONU (Optical Network Unit)/ONT (Optical Network Terminal) and OLT (Optical Line Terminal). The OLT provides an integrated access box for Passive. From residential to business to multi-dwelling units, our extensive portfolio of ONTs supports any deployment scenario with industry-leading voice, data and video capabilities. Our next generation of multigigabit XGS-PON optical network terminals (ONTs) is here and ready to support the most. Upgrade your home and business connectivity with our advanced XPON ONU/ONT series.
