

Warranty warranty for SFP fiber optic Ethernet switches

Article Overview

SFP fiber optic modules typically come with limited hardware warranties ranging from 1 year to 5 years, depending on the vendor, with coverage for defects in materials and workmanship.

Vendor-Specific Warranty Details

Cisco: Cisco offers a 5-year limited hardware warranty on pluggable modules including SFPFE, SFPOCX, SFPGE, SFP10G, X2, SFP25G, QSFP40G, QSFP100, and QDD400G families, effective from September 7, 2020. This warranty covers defects in materials and workmanship, and products purchased before this date are covered under the warranty in effect at the time of purchase . **Juniper:** Juniper EX4600 switches come with a hardware warranty for the base unit, but SFP modules must be purchased separately. While hardware faults are covered, support contracts are required for troubleshooting beyond hardware issues. Lifetime warranties are rare, and advanced replacement services typically require an active support contract with next-day or better SLA . **RLH Industries:** RLH provides a lifetime warranty on their fiber optic link systems, guaranteeing products are free from defects in materials and workmanship for the life of the product. This applies to managed industrial switches, including models with SFP fiber ports, and is designed for harsh industrial environments . **Siemens SCALANCE X:** Siemens SCALANCE X industrial switches and media converters support fiber optic connections, but specific warranty terms are detailed in product documentation. Typically, industrial Ethernet switches have limited warranties covering defects in materials and workmanship, with duration va...
