

# What are some manufacturers of relay protection equipment

## Article Overview

Leading manufacturers of relay protection equipment include ABB, Siemens, Schneider Electric, GE Grid Solutions, and Schweitzer Engineering Laboratories (SEL), among others.

### Global Leaders in Protective Relays

ABB is a long-established leader in electrical components and protective relays, offering a wide range of digital and electromechanical relays for utilities and industrial applications, with strong global service networks and compliance with international standards . Siemens produces the SIPROTEC and SIRIUS series, integrating protection, control, and automation for industrial and power systems, emphasizing modular design and reliability . Schneider Electric provides the Easergy and TeSys relay ranges, widely used in power distribution and industrial automation, known for easy integration and dependable performance . GE Grid Solutions specializes in advanced digital relays and grid protection systems, supporting utilities with smart grid integration and predictive diagnostics . Schweitzer Engineering Laboratories (SEL) focuses on innovative protection technologies, including AI-enabled relays and cloud-integrated monitoring, experiencing rapid growth due to advanced protection adoption .
