

What s a reasonable price for cable tray contracting

Article Overview

Cable tray contracting typically ranges from \$5 to \$50 per meter, depending on material, type, and installation complexity.

Material and Tray Type Costs

The cost of cable trays varies significantly based on the material and design:

- Steel trays: Most common and cost-effective, ranging from \$5 to \$25 per meter. Suitable for general-purpose installations in residential, commercial, and industrial settings .
- Aluminum trays: Lightweight and corrosion-resistant, ideal for outdoor or humid environments, costing \$6 to \$30 per meter .
- Fiberglass Reinforced Plastic (FRP) trays: Durable in aggressive environments, priced \$10 to \$50 per meter .
- Stainless steel trays: Highest durability and corrosion resistance, used in food plants or coastal areas, generally the most expensive .
- Coatings: Hot-dip galvanized (HDG) trays cost more than pre-galvanized or powder-coated trays but offer better corrosion protection . Tray type also affects cost: ladder trays are more expensive but support heavier cables, while perforated or wire mesh trays are cheaper and suitable for lighter loads .
