

Where are alloy cable trays manufactured

Article Overview

Alloy cable trays, including aluminum and other metal alloys, are manufactured globally, with major production hubs in North America, Europe, and Asia.

Key Manufacturing Regions

North America: Companies like ABB and Atkore International produce alloy cable trays in the USA and Canada, offering a range of perforated, ladder, and channel trays suitable for industrial and commercial applications (ABB) and customized solutions for infrastructure projects (Atkore International) . **Europe:** Leading manufacturers include Niedax Group (Germany), Spina Group (Italy), and Legrand (France), which produce high-quality alloy cable trays adhering to EN 61537 and ISO 9001 standards. European production emphasizes durability, corrosion resistance, and compliance with international standards . **Asia:** The Asia Pacific region, particularly China and India, is a major hub for alloy cable tray production, driven by industrialization and large-scale infrastructure projects. Manufacturers here focus on cost-effective, lightweight, and corrosion-resistant aluminum trays suitable for commercial and industrial installations . **Middle East:** ABB also operates production facilities in Saudi Arabia, supporting regional demand for alloy cable trays in industrial and infrastructure projects .

Materials and Product Types

Alloy cable trays are typically made from aluminum or aluminum alloys, valued for their lightweight, corrosion resistance, and high load-bearing capacity. They are available in various designs, including ladder, perforated, wire mesh, and channel trays, to suit different installation environments and electrical load requirements .

Summary

Alloy cable trays are manufactured worldwide, with North America, Europe, and Asia being the primary production regions. Companies like ABB, Atkore International, Legrand, and Niedax Group are notable producers, offering products that meet international standards and cater to diverse industrial, commercial, and infrastructure needs .
