

Wholesale price for 12-core fiber optic cold splices

Article Overview

Wholesale 12-core fiber optic cold splices typically range from \$1 to \$5 per splice depending on type, quantity, and supplier.

Pricing Overview

The cost of 12-core fiber optic cold splices varies based on whether you choose mechanical or fusion splices, the supplier, and the order volume. Mechanical splices, which are easier to install and suitable for temporary or field repairs, generally cost \$1-\$3 per splice in bulk. Fusion splices, which provide lower signal loss and are ideal for permanent connections, can range from \$3-\$5 per splice when purchased wholesale. Ordering directly from OEM distributors or verified Chinese suppliers can further reduce costs, especially for large quantities.

Bulk Purchasing Strategies

- **Direct Factory Sourcing:** Purchasing from OEM manufacturers in China or other regions allows for custom specifications and better price negotiation. Bulk orders often include discounts and free shipping options.
- **Online Wholesale Platforms:** Websites like Alibaba, AliExpress, and CableWholesale offer competitive pricing for fiber optic splices and related accessories, including 12-core splice trays and enclosures.
- **Bundle Orders:** Combining splices with splice trays, pigtails, and fiber cables can reduce overall costs and simplify procurement for large projects
