

Wholesale price of 380V battery storage cabinet

Article Overview

Wholesale prices for 380V battery storage cabinets typically range from \$8,000 to \$25,000 per unit, depending on capacity, cooling type, and customization options.

Pricing Overview

The cost of a 380V battery storage cabinet varies widely based on energy capacity, modular design, cooling system, and certifications. Standard industrial cabinets with air cooling and moderate capacity (e.g., 50–200 kWh) generally start around \$8,000–\$12,000 per unit for bulk orders, while high-capacity, liquid-cooled, or fully integrated systems (e.g., 125 kW / 261 kWh) can reach \$20,000–\$25,000 or more per unit. Prices are often negotiable for OEM/ODM projects or large-scale procurement.

Factors Affecting Wholesale Price

- **Battery Type and Capacity:** Lithium-ion cabinets with higher energy density and longer cycle life cost more than lead-acid or VRLA systems.
- **Cooling System:** Liquid-cooled cabinets offer higher efficiency and compact design but increase cost compared to air-cooled models.
- **Certifications and Safety Features:** CE, IEC, UL, and fire protection systems add to the price but are essential for industrial compliance.
- **Customization:** Custom layouts, modular designs, and branded panels can increase unit cost, though suppliers often accept MOQ of one unit for standard models.
- **Integration with PCS and BMS:** Cabinets integrated with power conversion system...
